1.1 G/L

pH

3.7

DESCRIPTION

This wine demonstrates a dark ruby color with pronounced red fruit jam aromas. Well balanced with silky tannins and an elegant finish.

WINEMAKER NOTES

This wine was made with foot-treading in traditional presses and granite with temperature-controlled fermentation and maceration post.

SERVING HINTS

This wine should be served at a temperature of 64.4° F and should be decanted so that the wine will open up and release all its organoleptic characteristics. Suggested pairings include light meat dishes, such as pork or flavorful hard Italian cow cheeses or sheep's milk cheeses.
