

Gustave Lorentz®

Évidence Riesling 2015

Firmly convinced of the need to preserve the environment, Georges Lorentz began the transition to organic viticulture in the early 2000's. Domain Gustave Lorentz became fully organic in 2009 having converted all of their vineyards.

Evidence reflects the respect we have for the biodiversity in our vineyards, as “evidenced” by the return of game birds to our land, which has inspired the label.

The feathers represent the wine's finesse and balance, while also alluding to its wild and natural nature.

Tasting Notes:

Pink grapefruit on the nose and lime combined with floral notes, dry and racy with a slight mineral edge. The palate is vibrant and intense but elegant, without any heaviness. Its acidity structure is firm but nicely integrated.

Food & Wine:

It pairs perfectly with fish, all seafood dishes as well as goat cheese.
