Description:
Light green straw yellow in color, the 2011 Isolation Ridge Riesling is an extremely distinguished Riesling that has a purity of flavor and exceptional balance, focus and natural acidity. Filled with intense aromatics of ironstone flintiness, abundance of kaffir lime with lifted floral notes. It is fine and elegant, yet fills the mouth with a concentrated mix of juicy lime and citrus notes followed by a core of spicy ironstone minerality.

Winemaker’s Notes:
The 2011 vintage was noted as having a long dry summer and cool evenings which resulted in grapes with great balance. The Isolation Ridge vineyard at Frankland Estate is farmed under organic principals, we believe this highlights the flavors that are achieved from the unique soils and climate the wine is grown in. The vineyard is planted on undulating northern and eastern facing slopes and the duplex soils of ironstone gravel over loam over a clay sub-soil. The vines are from two different clones, the Geisenheim and Rhine Riesling, planted in 1988. Both Scott Henry and Vertical Shoot trellis systems are used. The long slow ripening periods typical of the Frankland region allow maximum flavor developments while maintaining the distinctive racy acidity and dry finish for which Riesling is renowned. Grapes are pressed immediately with the juice left to settle in tank over night before being racked and fermentation introduced. Our aim is to minimize intervention in order to obtain the purest and finest expression of the pristine fruit from the Isolation Ridge vineyard. This wine was fermented in tanks and (neutral) oak at low temperatures (less than 14 C (57 F). Vines are all dry grown practicing organic viticultural techniques.

Serving Hints:
Riesling is a versatile wine for pairing with food and goes well with white fish or pork, and spicy Asian cuisine.

PRODUCER: Frankland Estate
COUNTRY: Australia
REGION: Frankland River
GRAPE VARIETY: 100% Riesling
RESIDUAL SUGAR: 3.2 g/l
