BRIEF - WHY?

To further strengthen Bodegas Bianchi portfolio in a highly competitive price segment (SRP USD \$15 and above) for the Argentine category in USA, leveraging a differentiating and growing attribute such as the organic wines.

Our aim is to incorporate a distinctive line into the portfolio, with a fresh, fun and contemporary style, connecting with the needs of young consumers seeking healthy products in harmony with the environment.

BRAND PROPOSAL

BIANCHI
ORGANIC

To be the young organic range of wines from Bodegas Bianchi that connects to consumers who foster the care for nature, its purity and the passion for enjoyment. We want to be part of the search for both inner balance and with the environment.

STORYTELLING

Connecting with nature, we returned to our roots and made this wine that is born from a natural soil. There, in the mountains of the south of Mendoza, lives an animal that we chose as a symbol of our respect for biodiversity and wildlife: the goat.

This commitment with the environment is essential to grow the organic grapes that inspire this wine: full of fruit and flower aromas, with a vast fresh and mineral flavor.

LABEL DESIGN

Respect for soil and biodiversity

Reinforcing the organic agriculture and pure nature concepts, we created characters based on a typical species from the south of Mendoza: the goat. The goat appears as caretaker and guardian of the vineyards within a mountain and vines landscape, thus achieving a relaxed and current visual tale.

The illustration also depicts insects, butterflies, bees, ladybugs that live in agrochemical-free vineyards, another element that reinforces the organic wine concept.

We show a healthy vineyard with all species living in harmony and a thriving biodiversity.
