100% Moscato
d'Asti

Alcohol

5.5%

Total Acidity

5.5 G/L

Residual Sugar

130 G/L

pH

3.10

DESCRIPTION

Straw-yellow in color. Vino dei Fratelli Moscato d'Asti has intense aromas of flowers and honey, with a hint of tropical fruit. It is 100% Moscato, with fine structure and strong flavors – sweet and very fragrant, delicate and harmonious on the palate.

WINEMAKER NOTES

This Moscato comes from white grapes grown at Valdivilla Santo Stefano Belbo, in the heart of the region known for making wines of great structure and strong aromas. The soil is calcareous white marl, with streaks of sand and sandstone, and the vines have a southeast to western exposure. The grapes are cultivated via the classic Guyot method, and state-of-the-art technology is employed during the winemaking process. A rich, thick must is created and kept at extremely cold temperatures (just above freezing). When the wine is to be shipped, the must is fermented and bottling takes place immediately thereafter, in order to ensure that the resulting wine is very fresh, bright and aromatic – with the characteristics of the grapes from the vines in this singular region showing through very well.

SERVING HINTS

A delightful aperitif, which also works very well as a dessert wine.
